ASTER-CR | Forward and reverse single-head effects

Qwen3-8B | repair-v2 | fit candidates | final judgment position

a A: Forward: right to left

b A: Reverse: left to right

c A: Bidirectional mean

d P: Forward: right to left

e P: Reverse: left to right

f P: Bidirectional mean

g C: Forward: right to left

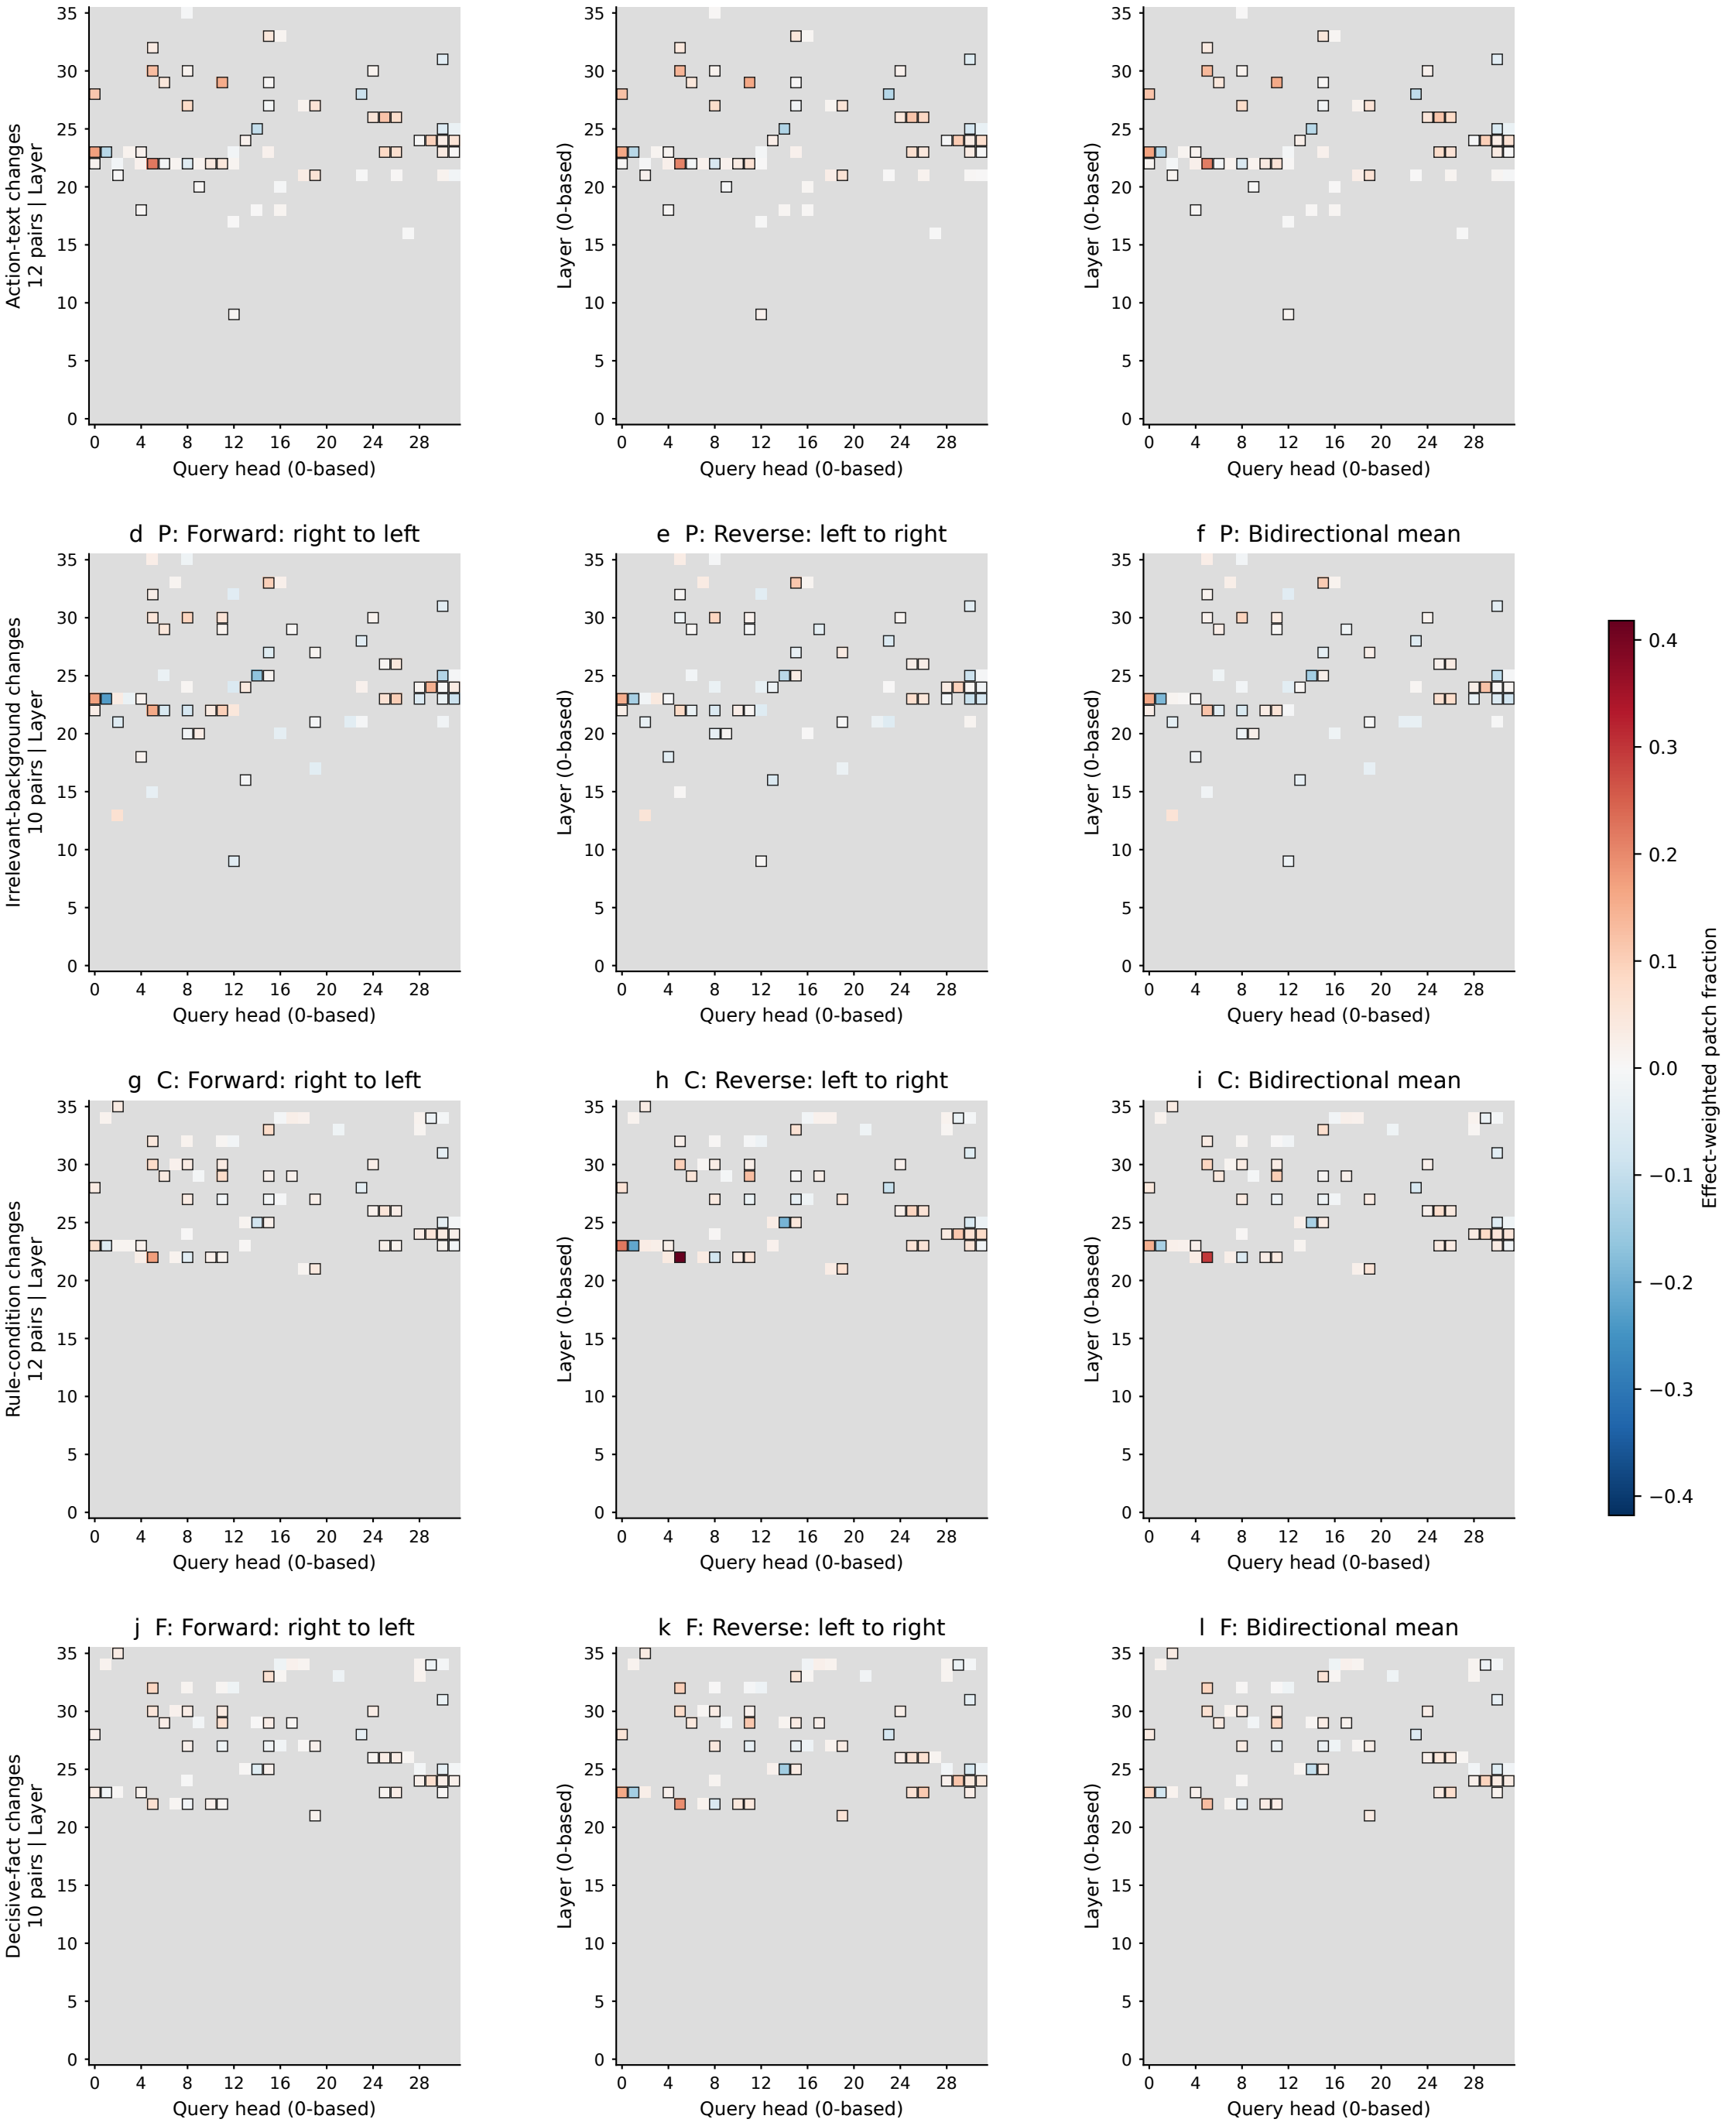

h C: Reverse: left to right

i C: Bidirectional mean

j F: Forward: right to left

k F: Reverse: left to right

l F: Bidirectional mean

Not measured Selected head (when measured)

Positive values move the judgment score toward the donor run; negative values move away.
Forward and reverse are donor-oriented. Fractions are not answer accuracy or necessity.
